

Overview

Spinnaker Support is a leading global provider of third-party support and managed services for SAP Business Intelligence components. Spinnaker Support currently services medium to large size enterprises running tools including SAP Business Warehouse (BW), SAP BW on HANA, SAP BW/4HANA, and SAP BusinessObjects (BOBJ), with thousands of professional users globally spanning more than 100 countries.

Spinnaker Support's third-party software support replaces SAP's annual application support and saves customers an average of 62% on maintenance fees. Our third-party support provides more services through an assigned support team and highly personalized service.

Your operations rely heavily on tools such as BW, BOBJ, and Crystal Reports to transform raw data into insights and actions that advance your business. With third-party SAP support, you gain high responsiveness and faster problem resolution when problems do arise.

Third-party SAP BI component support lets you remain on your existing versions for as long as needed regardless of whether the product version remains covered by SAP Support. When you eventually upgrade, move to the cloud, or migrate away from your current products, can rely on our expert technology advisory services.

TODAY'S SUPPORT CHALLENGES

Software support is a mandatory expense, but not one that should drain your IT budget. Expert assistance is critical to dealing with unplanned technology issues, and that service should be fairly priced.

Unfortunately for organizations running stable BI components like Business Warehouse and BusinessObjects, SAP Support has turned towards a self-service model with slow response times and little value. SAP is always prepared to upgrade you to new versions like BW/4HANA or have you invest even more to migrate to another product. But if you are not yet ready for an upgrade or wish to implement your technology roadmap at your own pace, then third-party SAP support is well worth considering.

Now imagine how support should be. Skilled engineers who know your BI components and business needs and respond in minutes to your support ticket. Reasonably-priced SAP support, services, and advice, available when and how you need them. Support that is *actually* supportive. **That's Spinnaker Support.**

HIGHEST RATED CUSTOMER SATISFACTION

In our 2019 annual customer satisfaction survey, covering the 2018 fiscal year, we reported a record 98.6% overall customer satisfaction, which we believe is the highest in our industry. Survey results are based on more than 500 customer responses.

“With SAP’s support, we never spoke with anyone. Now, with Spinnaker Support, it’s 3-4 times better than SAP was. We talk to a real person and have a real resolution. It’s like you found the switch to the light in a dark room.”
