

SAP HANA

Third-Party Support

OVERVIEW

Spinnaker Support is the leading global provider of third-party support and managed services for SAP HANA and related products.

Spinnaker Support's third-party software support replaces SAP's annual maintenance and support. Third-party support is always at least half the cost of SAP support and provides more services through an assigned support team and other personalized service components.

When switching to Spinnaker Support, SAP customers gain more comprehensive and responsive service, save on their support fees, and can remain on HANA and related applications such as ECC for as long as they want. Customers trust us to keep their SAP applications running smoothly, securely, and in compliance, and to help them navigate from on-premise to hybrid to cloud when they are ready.

SUPPORTED VERSIONS

SAP HANA releases 1, 2, and S4

SUPPORTED PRODUCT AREAS

- Index Server
- Name Server
- Pre-process Server
- Statistical Server
- Studio Repository
- XS Engine
- Java
- HTML

- SQL*Plus
- SQL*Loader
- PL/SQL
- Cloud Environments
- Advanced Security
- Diagnostics
- OLAP

SUPPORTED APPLICATIONS

We support both standalone SAP HANA instances and SAP HANA in conjunction with all SAP applications.

TODAY'S SUPPORT CHALLENGES

Software support is your insurance policy.

It's critical to have an expert safety net available to handle unplanned application and database issues. Sadly, SAP Support has devolved in recent years into a self-service model with slow response times and little value to organizations running stable software and systems. Already expensive, the cost of this service continues to grow at a rate of 2-4% per year.

Now imagine how support should be. Skilled engineers who know your business and applications environment and respond in minutes to your support ticket – whether for customized code, interfaces, interoperability concerns, or even general inquiries. Reasonably-priced SAP support, services, and advice, available when and how you need them. **Trusted Support Solutions—Exceptional Customer Experience.**

That's Spinnaker Support.

SPINNAKER SUPPORT: YOUR SUPPORT SOLUTION

Spinnaker Support replaces SAP's ongoing database support in a proven, secure, and smart way.

RESPONSIVE SERVICE

Responses in < 15 minutes, from Level 4 senior support engineers

COMPREHENSIVE SUPPORT

Covers security, custom code, interoperability, tax & regulations, and more

IMMEDIATE COST SAVINGS

Average 62% hard savings, with more soft savings possible

FLEXIBLE CONTRACT TERMS

Align support fees with software use and future migration plans

CUSTOMIZED ASSISTANCE AVAILABLE

We also offer a tailored set of managed services and consulting

WHY THIRD-PARTY SUPPORT FOR HANA DATABASE

SAP has clearly stated that HANA is now the foundation of its future database and application strategy. For that reason, you've made a major investment made up of budget, time, technology, and staffing to achieve a smoothly running HANA environment. But like many SAP customers, you may not be ready or willing to risk a migration to newer applications.

Spinnaker Support can help prepare you today for that eventual move to S/4HANA, C/4HANA, or other SAP Cloud applications by providing the HANA expertise and cost savings you need. Our third-party support also includes advisory services in areas of migration and roadmap planning.

“

The support engineers are responsive, efficient, and engaged directly on resolving our issues. They don't respond with stall tactics or try to push unneeded patches to 'try' and resolve issues, like SAP support.

”

Ajith Kumar, Sr. Manager
Autodesk

THIRD-PARTY ORACLE DATABASE SUPPORT INCLUDES:	
Break/ Fix Support	Keep your enterprise applications running at peak performance with swift responses, proven ISO-certified processes, and diagnostic services, product fixes, and/or operational workarounds for standard and custom code and integrations.
General Inquiry for Supported Products	Advisory support to help you understand your options in areas as diverse as application functionality, virtualization, cloud migration, security, audit defense, and roadmap planning.
Security & Vulnerability Management	Through proven processes, security products, and a staff of industry experts, we continuously investigate issues, harden and protect your application environments, and deliver timely fixes, patches, and remediations.
Technology Advisory Services	Unbiased and proactive technology advisory services that help as you advance through your IT and innovation roadmap, including virtualization, cloud migration, and upgrade support.

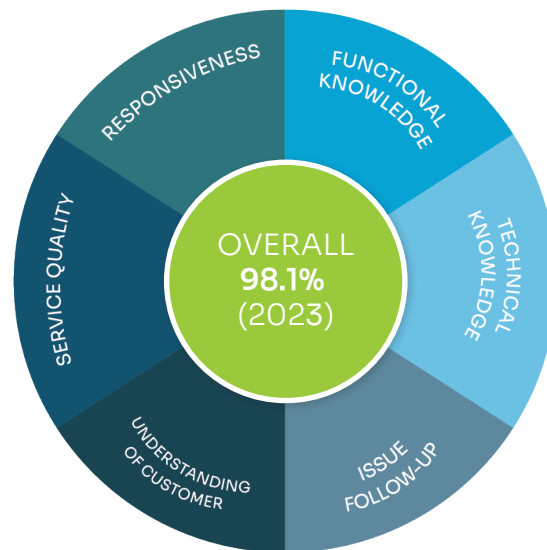

SPINNAKER SUPPORT: THE GLOBAL TEAM

Spinnaker Support engineers average over 19 years of experience. Working out of eight regional operations centers, our team supports versions 4.6C to the latest Netweaver stack and HANA releases. These professional engineers fill your knowledge gaps, ease your staffing constraints, and provide expert assistance for complex database issues.

Our Customer Success team leads all new customers through a phased, collaborative onboarding and archiving process designed to ensure a smooth transition to Spinnaker Support.

HIGHEST RATED CUSTOMER SATISFACTION

In our 2023 annual customer survey, we reported a record 98.1% overall satisfaction. Survey results are based on more than 500 customer responses.

ABOUT US

Spinnaker Support is a leading and trusted global provider of Oracle and SAP third-party support. We are the only vendor to deliver a unique blend of third-party support, managed services, and consulting when customers prefer to consolidate with a single vendor. Spinnaker Support's award-winning blend of services span SAP, BusinessObjects, Oracle E-Business Suite, JD Edwards, Siebel, Oracle Database, Oracle Technology and Middleware products, Hyperion, Demantra, Agile PLM, ATG/Endeca, and more.
